

Strategic Decisions for AGM 2026

1. Activity Fee for 2026

The club's overall costs are rising due to several developments:

- More league matches across age groups.
- Increased hourly rates for booking cricket grounds in the kommun (this happened last year but we haven't changed the fees structure)
- **SCF has increased the price of official match balls from 110 SEK to 250 SEK.**

In 2025, club used **128 match balls**, meaning this change adds around **17,920 SEK** in cost (from 14,080 to 32,000 SEK).

➡ Should the **activity fee be raised to 2,000 SEK** for 2026 to help cover these increases?
Open for member discussion.

2. Club Uniform – Design and Vendor Update

There is a possibility of updating the club's uniform for 2027.

➡ Should the club change design or supplier? Feedback is requested on quality, pricing, and consistency.

3. Practice Balls – 2026 Season Planning

Shall we use Newbery balls practice as these will be used in leagues?

4. Indoor Pre-Season Training – Junior Program Challenges

The kommun currently allows **free-of-cost booking of indoor halls for junior training**, which is a valuable benefit. However:

- The number of available halls has been **restricted to only four**.
- This has made scheduling and access for junior sessions increasingly difficult.

➡ What can be done to ensure juniors have sufficient indoor training opportunities?
Options may include booking external venues (which would involve additional costs).
